Elementi NON disponibili
Elements NOT available

Colonne anta intera
Full-height door column units

Venatura cassetti e cestoni
Drawers and deep drawers veins

Le venature tra i vari frontali non risultano in "biglia".
The veins aren't continuous through the different fronts.

Data la particolare forma del telaio, questo modello si presta anche in composizioni senza maniglia esterna ad esclusione dei moduli che prevedono frontali H. 12 e frontali con larghezza 15 cm, perché lisci senza telaio.

Given the particular shape of the frame, this model is also suitable in compositions without external handles, except for units with front panels H. 12 and front panels W. 15 cm, because they are smooth.
